

MARKETS WE SERVE

 TowerCo

MUNICIPALITIES

The transition to 5G has already started. And while it promises great things, we understand the security, funding and existing infrastructure challenges you and other municipalities face in getting there. We'll help you navigate those challenges and align the interests of your community with the interests of wireless carriers to build successful networks. We create custom tower solutions that emphasize connectivity while minimizing impact to land use, and we can help you market your real estate assets.

With more than 20 years of experience working with over 500 cities nationwide, we have the expertise to help you create stronger, smarter networks to increase quality of life and ease of doing business, and maximize public safety and welfare.

LANDOWNERS

Any unused portion of your property or structure could potentially be earning revenue - with a minimum of involvement from you and no capital investment. TowerCo offers a variety of solutions for owners to market and lease their property to carriers. Adding a cell tower lease to your property is one of the most hassle-free and profitable ways to leverage your real estate and provide the stability of reliable revenue.

At TowerCo, we equip you with the information that allows you to make the best use of your land. You'll know exactly how it works and what to expect. Most importantly, we empower you to increase your income long-term and ultimately grow a stronger business.

CARRIERS AND SITE ACQUISITION AGENTS

At TowerCo, we bring simplicity to the build to suit and colocation processes. We equip you with information that empowers educated decisions. We uncover unique solutions that benefit everyone involved and we help you set expectations your customers can count on. In short, we work to empower you to grow your networks to provide seamless coverage.

HOW CAN WE EMPOWER YOU?

We're here to answer every question you have about building and expanding wireless infrastructure. Contact us today!

EMPOWERING connectivity

WHO WE ARE

TowerCo owns, builds, and manages a portfolio of wireless infrastructure assets and properties for colocation. We work in close partnership with everyone involved; and use our knowledge of site acquisition, zoning, and construction to facilitate a smooth process. We were founded in 2004 by a group of industry veterans who wanted to create a quick and simple way to expand wireless infrastructure. We're a nationally approved vendor for all major wireless operators and have extensive experience working with state agencies, municipalities, schools, and private landowners.

HOW WE EMPOWER YOU

MEANINGFUL RELATIONSHIPS

Our projects are only successful when we listen closely to your needs and operate as collaborators. We'll look to you for local guidance and you'll always know exactly where things stand.

DEEP KNOWLEDGE

We don't just listen to the needs of community members, local organizations, and first responders, we propose solutions that meet them. Then, collaboratively, we review the project proposal to ensure everything can move forward as planned before drafting zoning and construction drawings.

PROBLEM SOLVING

Because of the number of factors, variables, and parties involved in a project, each municipality and site has unique strengths and challenges. Our engineers consider all of them, and design network solutions that are custom for every client.

CONSTRUCTION

When it's time to build, we handle every aspect from tower fabrication to site construction and inspection.
